Dear Mr. Lebovitz:

Subject: L2 Consulting Services, Inc. Electrical Wiring Interconnection Systems (EWIS)
Assessment Documents

The Federal Aviation Administration (FAA) has reviewed the following EWIS Documents and concurs that the modifications do not necessitate a revision to the existing OEM EWIS ICA. The approval of these documents completes the requirements of § 26.11(c) for these projects.

<i>Project Number</i>	<i>STC</i>	<i>EWIS ICA Report</i>

ST1370BO-T	ST00300BO	4612-B49-EWIS-ANL, Rev. A, June 18, 2010

If any changes occur that require a revision to your EWIS ICA Assessments, you must coordinate with this office for our review and approval. As we are able, our office will re-issue the STC certificates without the Part 26.11 limitations statement. Until then you may use this letter as evidence of your compliance.

If you have any questions please contact Mr. Kyle Cobble by telephone at (817) 222-5172 or by e-mail at kyle.cobble@faa.gov.

Sincerely,
