JOB POSTING

Position: Quality Specialist
Locations: Dripping Springs, TX (Austin, TX area)
Description: Expanding avionics company seeks Quality Specialist who will be accountable for product quality activities as relates to avionics integration kits. Will adhere to the details of inspection standards, methods and procedures used by the PMA Manufacturing Facility while complying with all FAA regulations, manufacturer's specifications and recommendations.

Company Quality Policy:

L2 is committed to quality and continuous improvement in all areas of our organization. We provide solutions based on our customers' needs and are dedicated to ensuring that all expectations are surpassed. We are fanatical in ensuring our solutions meet or exceed regulatory and customer requirements. Working as a team, all employees are involved in the continuous quality improvement process to ensure that the company goals for quality, timeliness, responsiveness and innovation are met, thereby ensuring customer satisfaction.

Primary Responsibilities:

- Ensures that no defective, unserviceable or unairworthy parts are used on any components or articles used or manufactured by the PMA Manufacturing Facility.
- Ensures all fabricated parts are labeled and identified properly.
- Ensures inspection of all work performed is in compliance with and conforms to approved data.
- Inspect visually for external or hidden damage and correct quantities and contents.
- Verify that tags or certifications are correct and meet applicable federal regulations.
- Inspect all paperwork for complete and appropriate sign-offs.
- Complete all paperwork in accordance with the PMA manual and all departmental guidelines and instructions.
- Verify that all materials are properly packed, labeled and stored.
- Perform review of equipment re-qualifications, calibrations and maintenance documentation
- Escalate Quality issues to management
- Must pass 10-year background verification and submit to company's DOT/FAA Part 145 Drug and Alcohol Abuse Program.
- All duties assigned by the Manager of Parts and Materials

Required Qualifications:

- Two or more years of Quality support experience

Preferred Qualifications:

- High School Diploma
- Good understanding of Quality requirements and inventory control.
- Enjoys the challenges of working projects that vary greatly and have distinct potential to require significant changes or alterations in mid-stream, remaining flexible and adaptable.
- Ability to interact with and maintain external relationships with customers and internal relationships within all departments at L2.
- Must be legally able to work in USA and supply required supporting documentation for the I-9 Federal Form.
