

JOB POSTING

Position: AutoCAD Draftsman

Locations: Dripping Springs, TX (Austin, TX area)

Description: AutoCAD Drafter with 3D Modeling experience (Inventor a plus) and background creating detailed production drawings and wiring diagrams.

Job Scope:

- Work with high-level inputs from Engineering. Examples of such inputs include sketches, verbal directions, technical data sheets, etc.
- Perform design tasks to include sheet metal/machine part design, assemblies/installation design, hardware selection, fastening/joining and raw material selection.
- Participate in technical detail decisions regarding connector selection, connector pin definition, wire type, and wire gage definition.
- Generate cohesive full spectrum electrical wiring diagram packages.
- Create and maintain symbols libraries and drawing specifications.
- Handle and/or manage multiple projects concurrently.
- Enjoys the challenges of working projects that vary greatly and have distinct potential to require significant changes or alterations in mid-stream, remaining flexible and adaptable.
- Must pass 10-year security clearance background verification and submit to company's DOT/FAA Part 145 Drug and Alcohol Abuse Program.

Preferred Qualifications:

- Four year College degree not required, but is preferred.
- Self-directed/self-starter in formulation of standards library and in the execution of day to day responsibilities.
- Aerospace or aircraft background a plus.
- Intermediate to advanced user capability in AutoCAD LT software.
- Intermediate use capability with Inventor 3-D not required, but is preferred.
- Intermediate to advanced user capability in other software including MS Office.
- US Citizen or Green Card Holder
