

JOB POSTING

Position: Entry Level Avionics Technician

Locations: Dripping Springs, TX (Austin, TX area)

Description: Expanding systems integration company seeks avionics technicians to support local manufacturing as well as remote avionics modifications programs.

Job Scope:

- Read and interpret wiring diagrams, work from engineering drawings, written or verbal instructions, as well as problem solving from various technical documents.
- Perform support functions for the installation crew to include off-aircraft assembly, parts tracking, inventory, assembly of document packages, job site prep/clean, computer entry and general support of the job site.
- Perform Installation activities to include:
 - Harness routing and securing
 - Wire preparation and termination
 - Single conductor, multi-conductor and coaxial cable termination
 - Continuity checks of all installed wiring
 - Power checks of all installed wiring
 - Functional tests of installed and interfaced equipment.
- All installation activities referenced above to be performed in accordance with the appropriate FAA approved document and Manufacturer's Installation Manual as well as any and all applicable L2 documents
- Perform troubleshooting and support activities as required by the company.
- Perform harness and kit manufacturing activities either remotely or at company headquarters as required.
- Approximately 60-90% travel.
- Must pass 10-year security clearance background verification and submit to company's DOT/FAA Part 145 Drug and Alcohol Abuse Program.

Preferred Qualifications

- FAA Airframe and Powerplant License Preferred but not required.
- Experienced in reading and interpreting technical documents and working from same.
- Self-directed/self-starter in completion of assigned responsibilities.
- Experience working on large transport-category aircraft strongly preferred.
- Hands-on experience operating or performing modifications on aircraft a plus.
- Enjoys the challenges of working projects that vary greatly and have distinct potential to require significant changes or alterations in mid-stream, remaining flexible and adaptable.
- Willingness to learn and grow by doing. Must have desire to gain experience/expertise and advance within the organization.
