#### For Immediate Release

#### **L2 Consulting Services, Inc. Receives FAA Approval for Amended SmartRunway® and SmartLanding® RAAS Supplemental Type Certificate on 767 Series Aircraft**

**Austin, Texas– November 18<sup>th</sup>, 2013-** L2 Consulting Services, Inc. (L2) announced that the company has successfully completed an amended Supplemental Type Certificate (STC) process for the installation of the enhanced Honeywell Runway Awareness and Advisory System (RAAS) on 767 series aircraft. The L2 owned STC (#ST10466SC), was revised to include a PN -236-236 software enhancement hosted in the Mark V Enhanced Ground Proximity Warning System (known as SmartLanding® & SmartRunway®). The revision also included a new “INOP” (inoperable) annunciation along with existing “OVRD” (override) functions. Overall, the system provides alerts that supplement flight crew awareness of aircraft position during ground operations and on approach to landing. The amended STC applies to all 767-200, -300 and -400ER series aircraft.

L2 President, Mark Lebovitz said, “L2 is pleased to continually be at the forefront of providing its customers with the latest in avionics safety and operational enhancements.”

For this program, L2 developed all of the integration engineering, initialized and managed the STC regulatory process, produced the installation kits and provided overall project management along with the “return to service” field installation services for an undisclosed VVIP customer.

#### **About L2**

L2 Consulting Services, Inc. ([www.L2aviation.com](http://www.L2aviation.com)) provides avionics engineering, integration and installation services (FAA CRS L2ZR265X) for the global air transport industry. Since 1997, the company has been performing integration of digital avionics systems into analog and digital aircraft. Additionally, L2 offers full installation and support capabilities. L2 specializes

in EFB, e-Enabled, Flat Panels, ACARS/DataLink, RAAS, TAWS, Satcom, Terminal and Cabin Wireless, Flight Data and FMS among other avionics systems.
