For Immediate Release

L2 Consulting Services, Inc. Names Michael Eiras as Director of Technical Services

Austin, Texas – June 13th, 2012 - L2 Consulting Services, Inc (L2), a leading provider of avionics integration engineering and installation services, announced the appointment of Michael Eiras as Director of Technical Services. Mr. Eiras (age 47) will assume his new duties, effective immediately.

With well over 17 years of extensive aviation experience in both commercial and government directed operations, Mr. Eiras will manage and direct the company's technical services for all company products. Additionally, he is responsible for ensuring that all technical work generated meets the company's procedures and quality standards.

L2 President Mark Lebovitz said, "We are delighted that Michael has taken this position with L2." He added, "His vast experience and technical expertise will certainly be of benefit to L2 and its customers."

Prior to joining L2, Mr. Eiras worked for Enflite (A Sikorsky Aerospace Services Company), where he oversaw the development, test and certification of new aircraft products including aircraft seating, galleys and other aircraft interior components. In 1995, he founded Quadrus Corporation, a software development and systems engineering firm that supports government prime contractors needs. He later sold the company to a group of investors. Mr. Eiras began his career with United Airlines during which time he held various engineering positions dealing with aspects from maintenance to installation and testing of communications, navigation and passenger entertainment systems. Mr. Eiras holds a degree from Embry-Riddle Aeronautical University along with numerous other certifications including FAA licensed Airframe and Powerplant mechanic, Certified Project Manager and Microsoft Certified System Engineer.

About L2

L2 Consulting Services, Inc. (www.L2aviation.com) provides avionics engineering, integration and installation services (FAA CRS L2ZR265X) for the global air transport industry. Since 1997, the company has been performing integration of digital avionics systems into analog and digital aircraft. Additionally, L2 offers full installation and support capabilities. L2 specializes in RVSM, RAAS, TAWS, Satcom, TCAS, EFB, Flat Panels, DFDR and FMS among other avionics systems.
