PRESS RELEASE

L2 Aviation Names Industry Veteran Tony Bailey Vice President of Business Development

Aerospace industry leader joins the L2 Aviation executive team.

Dripping Springs, Texas: L2 Aviation, a leading supplier of global avionics services including engineering, parts, certification, installation and manufacturing announced today a key addition to its leadership team with the addition of Tony Bailey as Vice President of Business Development overseeing global business development efforts.

"I am thrilled to be a part of the L2 Aviation Team", said Bailey. "L2 Aviation has a tremendous reputation of innovation and quality that has allowed them to continue to grow despite the hardships within the aviation industry. I plan on continuing that tradition and achieve an even higher level as we continue to grow and add new product lines, new markets and new clients without losing focus on our current customers."

"Tony brings a level of experience and expertise specific to our business that is nearly unparalleled in the industry", said Mark Lebovitz, Founder & CEO of L2 Aviation. "He has a wealth of knowledge and a wide network of relationships in the different segments of the aviation industry and executive business leadership experience. That exceptional combination provides us with tools and insights that will be critical to keeping L2 Aviation connected with our customers while providing them with the confidence that L2 Aviation is here to stay and we will continue to invest in the future of our business and aviation as a whole."

About Tony Bailey

Mr. Bailey, the former President & CEO of Spirit Aeronautics, grew up in New Mexico and began his career in aviation in 1983 when he joined the United States Marine Corps as an aircraft Electrician on F-4 Phantoms. Since then, he has gained vast business and educational experience holding various positions with titles including President, CEO, General Manager, Director of Avionics & Engineering, Director of Maintenance, Avionics Manager, Quality Control Inspector, and Instrument & Autopilot Supervisor. Tony is a graduate of Eastern New Mexico University and holds an FAA A&P License.

About L2 Aviation

L2 Consulting Services, Inc., doing business as L2 Aviation, provides global aircraft modification support services including avionics engineering, system design, repair, certification, kitting and installation for airline, government, military and business aviation customers. L2 Aviation specializes in complex avionics solutions and remote installations focused on reducing down-time and mitigating crew workload. L2 Aviation makes great airplanes BETTER!
