

L2 CONSULTING SERVICES, INC.

Media Release

For Immediate Release

L2 Consulting Services, Inc. Receives Korean Validation of STC for ACARS Data-link Installation on 767 Series Aircraft.

Austin, Texas– July 17th, 2013- L2 Consulting Services, Inc. (L2) is pleased to announce that the company has received validation from The Republic of Korea’s Ministry of Land, Infrastructure and Transport for Supplemental Type Certificate (ST11124SC). The STC is for the installation of the ARINC 758 Aircraft Communications Addressing and Reporting System (ACARS) Data-link system on 767 series aircraft. The L2 owned STC was originally awarded FAA certification in February of this year.

L2 Director of Business Development, Ramon Montemayor, said, “The validation of our STC by The Republic of Korea further enhances our reputation as a globally respected avionics design and integration provider.” He added, “This validation also expands our business opportunities within the region.”

The ACARS system allows for faster and more accurate communications with Air Traffic Control and airline operations thereby improving safety and efficiency of airline and airspace operations. The validation of the STC applies to the ACARS installation on B767-300 series and 767-300F series aircraft.

About L2

L2 Consulting Services, Inc. (www.L2aviation.com) provides avionics engineering, integration and installation services (FAA CRS L2ZR265X) for the global air transport industry. Since 1997, the company has been performing integration of digital avionics systems into analog and digital aircraft. Additionally, L2 offers full installation and support capabilities. L2 specializes in EFB, ACARS/CPDLC, RAAS, TAWS, Satcom, Terminal and Cabin Wireless, Flat Panels, DFDR and FMS among other avionics systems.
