L2 Consulting Services, Inc. Successfully Completes the Large-Format Display Program with Rockwell Collins

Austin, Texas– September 3rd, 2014 - L2 Consulting Services, Inc. (L2) is pleased to announce that the company has successfully supported the Rockwell Collins ODA with their efforts in securing an FAA Supplemental Type Certificate for the Boeing 767 large-format display retrofit. L2 was tasked with developing the engineering design and analysis for the installation kit, producing the installation kits and providing prototype remote installation support services for Rockwell Collins.

L2 President, Mark Lebovitz said, “We are pleased that Rockwell Collins continues to place value on the high level of service L2 is able to provide.” He continued, “And we are delighted to deliver this very complex retrofit program on schedule.”

The 767 upgrade features three large-format LCD displays that replace six cathode ray tube (CRT) displays and numerous analog instruments.

Dean Rudolph, L2 Vice President of Operations said, “The Rockwell Collins large format display retrofit provides operators with multiple benefits ranging from maintenance and cost savings to improved safety features.”

By utilizing L2’s aircraft avionics systems integration expertise, Rockwell Collins customers achieve real benefits from the 767 large format display retrofit. These benefits include enhanced flight crew situational awareness, a platform to incorporate future safety-enhancing technology such as airport taxi maps, data link weather, surface guidance and enhanced visions systems and the benefit of aircraft life extension by proactively managing CRT obsolescence.

About Rockwell Collins

Rockwell Collins is a pioneer in the development and deployment of innovative communication and aviation electronic solutions for both commercial and government applications. Our expertise in flight deck avionics, cabin electronics, mission communications, simulation and training, and information management is delivered by a global workforce, and a service and support network that crosses more than 150 countries.
